

AQUA C5

by PALM PRO

WATERPROOF.CUT-RESISTANT.COMFORT LINED

A waterproof micro-foam nitrile palm-coated glove built with a 15-gauge HPPE/steel outer liner, waterproof membrane, and nylon/cotton inner liner for protection, grip, and comfort in wet working conditions.

WET WORK / CUT E / COMFORT LINED

CUT E

EN ISO 13997 • 22 N minimum

CUT A5

ANSI/ISEA 105 • ASTM F2992

WATERPROOF

Breathable waterproof membrane

WET GRIP

Micro-foam nitrile palm coating

WHY CREWS CHOOSE IT

Cut protection that stays flexible in wet work.

- Waterproof and windproof membrane helps keep hands protected in wet conditions.
- Micro-foam nitrile palm coating delivers reliable grip in wet and dry work.
- EN ISO 13997 Cut Level E and ANSI/ISEA 105 Cut Level A5 protection for sharp-material handling.
- Double-layer liner balances dexterity, sensitivity and breathability.
- Seamless knitted liner improves flexibility during long shifts.
- Palm-coated design keeps the glove lower-profile for everyday handling.

BUILT FOR

Wet, cold and cut-risk handling.

- Oil & Gas
- Freezer / Cold Store
- DIY / General Work
- Metal Stamping
- Automotive
- Sheet Metal
- Metal Fabrication
- Glass & Window

[BEST WHEN THE JOB GETS:]

WET / COLD / SHARP / GRIP-DEPENDENT

One glove for teams that need waterproofing, cut resistance and reliable wet/dry grip without bulky impact armor.
