

AQUA IC5

by PALM PRO

WATERPROOF. CUT-RESISTANT. IMPACT READY.

A waterproof micro-foam nitrile palm-coated impact glove built with a 15-gauge HPPE/steel outer liner, waterproof membrane, and TPR armor for wet-condition grip, cut resistance, impact protection, and breathable performance.

WET WORK / CUT E / IMPACT LEVEL 2

CUT E

EN ISO 13997 • 22 N minimum

CUT A5

ANSI/ISEA 105 • ASTM F2992

IMPACT 2

ANSI / ISEA 138

WATERPROOF

Breathable membrane

WHY CREWS CHOOSE IT

Protection that still works like a glove.

- Breathable waterproof and windproof membrane helps keep hands protected in wet conditions.
- Micro-foam nitrile palm delivers reliable grip in wet and dry work.
- Double-layer liner balances dexterity, sensitivity and comfort.
- Seamless knit construction improves flexibility during long shifts.
- TPR back-of-hand protection helps reduce impact exposure.

BUILT FOR

Wet, cold and high-risk handling.

Oil & Gas

Glass & Window

Metal Fabrication

Freezer / Cold Store

Sheet Metal

Automotive

Metal Stamping

DIY / General Work

BEST WHEN THE JOB GETS:

WET / COLD / SHARP / IMPACT-PRONE

One glove for teams that need waterproofing, cut resistance and impact coverage in the same shift.
